Summary

Self-motivated software Developer with over 5 years of experience specializing in JavaScript (Ts), React and Python, with expertise in related web frameworks, DevOps, and AI-driven applications.

Work History

08/2022 – 01/2025 **Fullstack Developer**

UAE Dubai

Etisqa Technologies 🔗

- Developed complex and robust web applications using FastAPI, React/Next.js, MongoDB and other technologies.
- Integrated 6+ existing applications with new systems, streamlining processes and improving overall functionality.
- Designed and implemented a unified onboarding system, enhancing user experience and reducing onboarding time for new leads.
- Conceptualized and developed an AI chatbot to handle customer inquiries, enhancing support efficiency and reducing human effort by over 60%.
- Conducted knowledge transfer (KT) sessions to mentor fellow developers on best coding practices, fostering an evolving environment and enhancing team communication and problem solving skills.

03/2020 – Present

Kashmir, India

Fullstack Developer (Part time)

Self Projects & Freelancing (Remotely across US, Turkey, Nigeria and more)

- Building over 50 web applications (mostly using React/Next.js) for myself and the freelance clients especially Upwork, JSS Works Pvt. Ltd., GVS Türkiye and others.
- Committed to learning modern frameworks and emerging AI technologies, with AI integrated into 8+ applications and plans for future expansion.
- Deployed web applications on serverless platforms like Vercel, Netlify, and AWS Amplify, achieving 99.99% availability.

Education

2019 – 2022

Kashmir, India

Bachelors in Computer Applications (BCA)

Cluster University Srinagar

- Achieved a high percentage of 89.6%, ranking as the second topper of the batch, demonstrating strong academic performance and dedication.
- Led the development and maintenance of the college website during my coursework, showcasing initiative and technical skills.

- Served as team leader and key contributor in the final semester project, fostering collaboration and effective communication within the team.

2023 – 2026
Delhi India Online

Masters in Computer Applications (MCA)

IGNOU Regional Center Delhi

- Pursuing the degree with coursework completed; awaiting final results.

Skills

Hard skills

Javascript, Typescript, Python, SQL, HTML/CSS, TailwindCSS, Github CI/CD, React.js, Redux, Next.js, Nodejs, FastAPI, MongoDB, Postgresql, Sqlite, MCP, OpenAI API etc.

Tools

Git, Docker, Docker Compose, MS Office, Chrome DevTools, Postman, Figma, Illustrator, Terminal, VPS, npnpm, Vscode, cursor AI IDE, Ollama etc.

Soft Skills

Communication, Teamwork, Problem-Solving, Adaptability, Time Management, Critical Thinking, Creativity, Attention to Detail, Empathy, Continuous Learning

Certifications

Python from Sololearn [↗](#)

- Completed the Python for Beginners course on SoloLearn, mastering key foundational concepts of the language.
- Analyzed and resolved coding challenges during the Python for Beginners course

Data Science Masters

- Pursuing a Data Science Master's from PW Skills to enhance my skills and effectively contribute to data-driven projects.
- Achieved 94%+ grades in the course so far.

Projects

01/2025

Onboarding System

using FastAPI, Next.js (TS), Astro.js, postgresql etc

- Created a centralized onboarding system to streamline user management and service integration.
- Utilized Postgres as database, FastAPI for the backend, and Astro.js for static site generation.
- Improved user registration and account management, significantly reducing onboarding time for new users.

05/2022

College Website

using Next.js and sanity CMS

- Developed a full-stack college website with Next.js and Sanity CMS as a final year project.
- Enhanced the college's online presence and user engagement, showcasing my development skills.
